## Reduction of Toxics in Packaging Law Certificate of Compliance

We certify that all packaging and packaging components of ITW Thermal transfer ribbons comply with the requirements of this law; namely that the sum of incidental concentration levels of lead, mercury, cadmium and hexavalent chromium present in any package or package component shall not exceed the following:

- 600 parts per million by weight  
(Effective two years after the legislation was signed into law)
- 250 parts per million by weight  
(Effective three years after the legislation was signed into law)
- 100 parts per million by weight  
(Effective four years after the legislation was signed into law)

We further certify that in cases where the regulated metals are present at levels below the schedule stated above, the regulated metals were not intentionally added during the manufacturing process.
